

ABOUT WALTON AERODROME LAND

BACKGROUND

1. History of the civil aerodrome at Lahore goes back to 1930 whence, it was allotted to Punjab Flying Club for five years. On winding up of the said club it was given to the Northern India Flying Club (NIFC) on 10.11.1933 which secured possession of land measuring 1121k 06m comprising Khasra Nos. 21 to 29 in Mauza Rakh Kot Lakhpat. This became basis for establishment of the civil aerodrome, also known as Walton Airport. Apart from the land already in occupation of the NIFC, additional land was taken by the Civil Aviation Department (CAD) of Government of India on lease @ Rs. 5/- acre from GoPb. The available revenue record shows that from 1935-36 to 2003-04, area of the additional Government land (excluding 1121k 06m under occupation of the former NIFC) that remained under occupation of the CAD from time to time ranged from 1,056 to 2,512 kanal.
2. The area with both the NIFC and later on the CAD was part of the notified forest area. According to a letter dated 03.05.1944 of the then Conservator of Forests, Western Circle, Punjab a large area measuring 2,899 acres in Mauza Rakh Kot Lakhpat was the Reserved Forest since 1909. However, over the time, the forest area continued to recede, primarily because of land use change. By 1944, area measuring 2,121.32 acres had been deforested leaving behind 777.68 acres forest area.
3. As per contents of the above referred, 2 parcels of deforested land measuring 119.71 acres and 139.82 acres respectively (total 259.53 acres) came under the Civil Aerodrome, Lahore.
4. Entries in the record of rights1935-36 show area measuring 1,121k 06m, comprising Khasra Nos. 21 to 29 as being owned by the then GoPb but in occupation of the NIFC, Lahore.
5. Entries in the record of rights of the following years show that in addition to the land originally under occupation of the NIFC came under occupation of the Civil Aviation Directorate (CAD), additional land was taken over on lease by the CAD, Government of India from GoPb for a period of 50 years at the annual rent of Rs. 5/- per acre for establishment of the Civil Aerodrome, Lahore. The available revenue record indicates that area of the leased land which in the beginning was 1056k 13m comprising Khasra Nos. 3, 16-20, and 30-33 continued to swell with time due to inclusion of additional adjacent lands and at one time it reached to 2,512 kanal. In this way, the total area that was on lease with the Aviation Department or otherwise remained in its occupation, measured 3,633k 11m (2,512-05-00+1121-06-00=3,633-11-00).
6. Apart from the originally leased area and occupied area in mauza Rakh Kot Lakhpat, the Aviation Department, during the World War-II, obtained additional lands measuring 2717k 07m 134sft in Mauza Bhabhra, Mauza Ichhra, and Mauza Guru Mangat through requisition under the Defence of India Rules for extension of the aerodrome in 1942-43. These requisitioned additional lands remained under occupation of the CAD till the Directorate of Military Estates, Lahore requested for their permanent acquisition in 1959 under the Acquisition of Requisitioned Lands (Continuation) Act, 1958. Accordingly, these lands were acquisitioned in favour of the CAD through the Acquisition Award dated on 11.04.1961 for land measuring 2,237k 1m 91sft comprising the Muslim properties in all three Mauzas. Government land measuring 540k 18 and the Evacuee property measuring 83k 14m were excluded from the Award.
7. Much of this acquired land over the time, however, has been taken over by other departments and authorities of the Ministry of Defence, GoPb, and Katchi Abadies; thus reducing the area actually under occupation of the CAA.
